

Appl. No. 10/613,543
Amdt. Dated October 7, 2004
Reply to Official Action of July 7, 2004
Attorney File No. 7850-005

In the Detailed Description of the Invention:

Please add the following beginning at the end of page 11, line 7:

Each hull section in this embodiment or any others could be configured with sufficient ballast below the centerline of said apparatus such that if said apparatus is turned bottom-side up, said apparatus will return to bottom-side down by itself.
